

Children's Lessons
Saturday March 16th, 2019
Fruits
Bible Verse: Galatians 5:22-26

Objectives:

- Learn about what the Holy Spirit does in our lives
- Know the fruits that the Holy Spirit gives us

Your memory in action: "If we live in the Spirit, let us also walk in the Spirit." Galatians 5:25

This week we will be using the method, my group will win:

- You need to take the verse to memorize written on a cardboard, paperboard, construction paper or any other material you want to use to get your children's attention.
- You must divide the group in two (if you have a lot of kids you can divide it into 3 or 4 groups, depending on the number of your children).
- Repeat the verse to memorize several times.
- Each group will have the opportunity to demonstrate that they learned the verse to memorize (remember to remove the written verse from view).
- The group that makes it louder and without reading is the winning group

Exploring the Bible:

This month we have been talking about someone special and important that we all should have in our lives, The Holy Spirit; we have known how he came to earth and how important it is to have Him in our hearts.

Let's remember; what happened to the church when they were filled with the Holy Spirit? (Wait for your children's response) Exactly! They began to talk and tell about Jesus to all the people and this is what God wanted them to do and even what he wants us to do, to talk about Jesus to other people.

How many of you like the fruit? (Wait for your children's response) What are the fruits you eat the most? (For this part of the class you will need some cardboard, papers or board where you go writing down the fruits that they mention)

When the Spirit comes into our lives, apart from being filled like last week's balloon, it also gives us its fruits that are virtues or attitudes that show that God is changing the life and heart of a person.

There are nine virtues that the Holy Spirit gives us that change our lives and are evidence that we are not the same person, remember that when we are filled with the Holy Spirit our lives change.

The fruit of the Spirit is a bit like the real fruit because each one is also special and different.

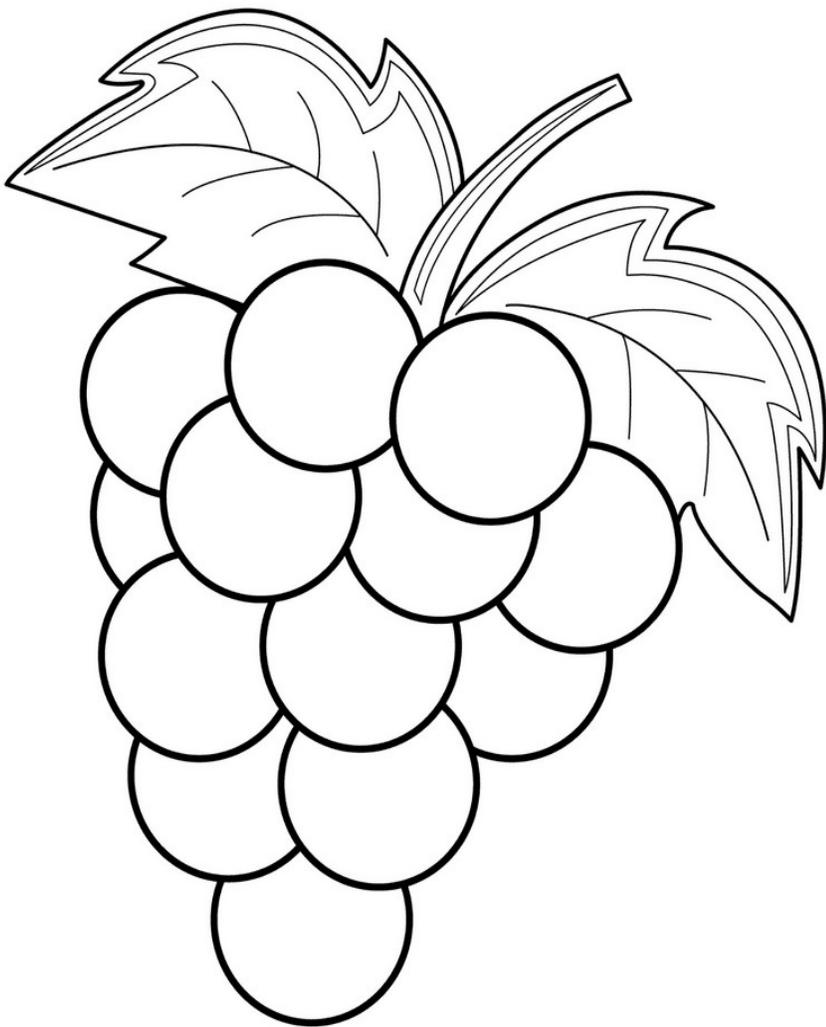

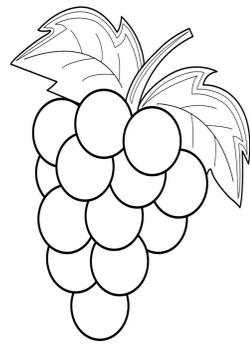

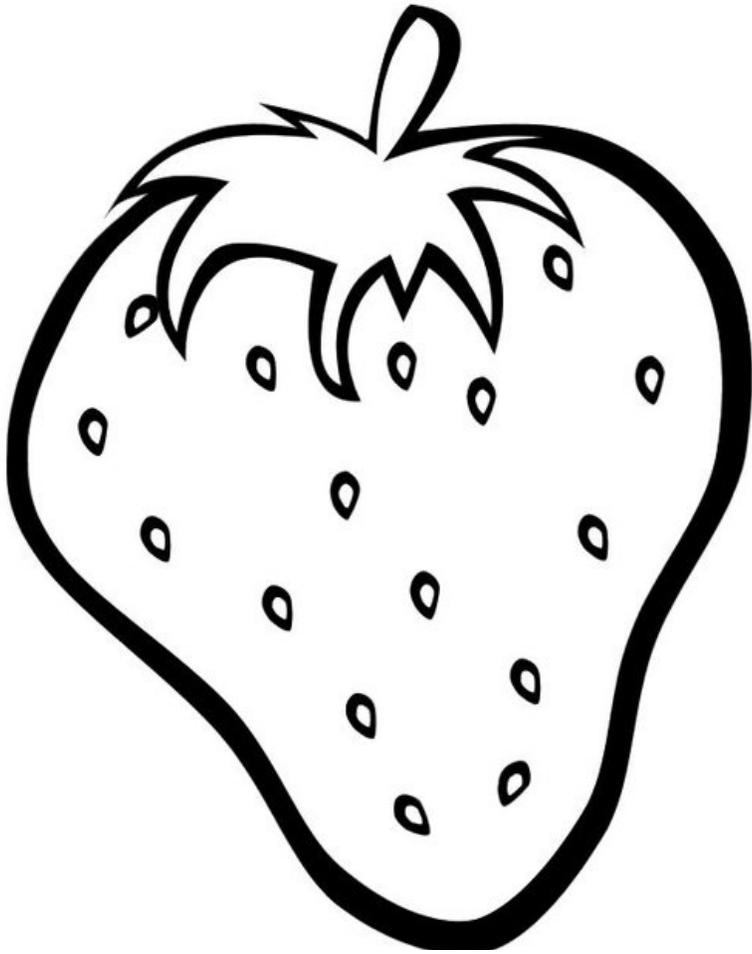

- Today we will talk about the first two fruits mentioned in the Bible (you must bear two fruits to illustrate and set an example, try not only to be drawings edible, so children who learn and who are synesthetic can pay attention).
- Love (You can illustrate it with strawberry) This fruit depends on others, because this is the fruit that seeks to fulfill the commandment that Jesus left us, that we love our neighbor as ourselves, this is the love that we give the Holy Spirit, we will be looking for the welfare of others before ours.
- Joy (You can illustrate it with Grapes) when the Bible speaks of Joy, it is the joy that comes from God, the joy of the Lord is our strength, says the Bible. It is an attitude of supreme confidence, based on that happiness that God gives us, that God always has control in the midst of any adversity and in spite of the circumstances there will always be enough reason to maintain the joy.

The next classes we will talk about the other fruits but these two must always be in our lives, we pray that the Holy Spirit come to our lives and thus his fruits

Class Activity

For Kids from 3 to 11 years old

Instructions: You will need any paper that your teacher will give you; example: construction paper, crepe paper, magazines, etc. ... that are red, purple and green so that you fill your two fruits. First of all you need some carton board so that your fruit is strong, because on your carton, you will proceed to fill your fruits.

You must have something like this and you can use it as a fan, also representing the Holy Spirit.

When you finish with the pallet sticks in each one you will stick your fruits and write on the stick of each fruit, example: I have Joy in the grape, so you will always remember them. You can use it as a fan. It is important to put it before on something strong because otherwise it will not be able to move when you get fresh.
